MICRO-TRIM INC.

Serving Our Customers Since 1983

THE COMPANY

Founded in 1983, Micro-Trim, Inc. has long been known as the headquarters for the manufacturing of custom trim kits for the installation of microwave ovens, cooktops and thermal ovens.

Micro-Trim employs an in-house sales staff to work with you on your special and everyday requirements. Experienced order personnel assures you of prompt, on-the-spot telephone service at all times.

Trim kit manufacturing is our only business...and we are good at it. Give us a call to assist you with your next installation.

QUALITY DETAIL

Custom trim kits from Micro-Trim are manufactured for use with most appliances new and old.

They are fabricated from high quality aluminum, then color powder coated or anodized for a fine finish. The kit provides an attractively styled, easily installed product.

A complete line of kits are available to fit your personal requirements whether your project is a simple appliance change out, a complete remodel, a new home, or a tract of new homes.

To compliment your installation, kits are available in:

**Black ♦ White ♦ Almond ♦ Biscuit
Stainless Steel Finish**

CUSTOM KITS

Many new installations present a need for something other than a standard trim kit. Our ability to manufacture custom kits is unequalled and custom products make up a large percentage of our business. Installations such as: **Custom Kits** to cover existing openings larger or smaller than the recommended opening;

Matching Width Kits that will match the width of a thermal oven of a greater width; **Full Length Kits** to enclose both microwave and thermal ovens of a smaller width; **Oven Fillers** when replacing a thermal oven of a smaller height dimension; **Oven Rings** when installing a replacement thermal oven into a wider cut-out dimension; and **Cooktop Trim Kits** when installing a cooktop into an oversized existing countertop opening and many more. The illustrations in this brochure will help you when ordering a kit from our custom line.

THINGS TO REMEMBER WHEN ORDERING:

The following information is required and necessary when ordering a **MICROWAVE OVEN TRIM KIT**.

1. Oven manufacturer's name.
2. Oven model number.
3. Existing cabinet cut-out size, if any.
4. Will microwave oven be installed over a thermal oven? (If yes, make & model of oven or just oven width is required)

Since microwave ovens vary greatly in size, there may be occasions where additional measurements may be required on some installations to insure a properly fitting kit.

For your convenience when ordering, we would be pleased to furnish you with our easy to use **Telephone/Fax Order Planning Form**.

We have designed this form with you in mind for fast ordering in a simple format that you can telephone or fax in with ease!

MICROWAVE TRIM-KITS

Matching Width Custom Kit
 Used on bi-level installations when the width of the microwave oven is less than that of the thermal oven and matching widths are desired.

Standard Kit
 Used on most installations where no prior cabinet cut-out exists and our recommended cut-out is used.

Limited Area Custom Kit
 Used on installations where the existing opening height is limited. Not recommended for use with Micro-Convection combo ovens. Other venting should be utilized in all installations.

Extra Height Top Custom Kit

Oversized top ventilator strips can be used when a pre-existing cabinet cut-out height is greater than our recommended opening height.

Full Length Custom Kit

For bi-level installations when the microwave oven is a greater width than that of the thermal oven, and a full length one piece trim kit is desired.

Extra Height Top & Bottom Custom Kit

Oversized top and bottom ventilator strips can be used when a pre-existing cabinet cut-out height is greater than our recommended opening height.

Thermal Oven Rings

Used when an existing cabinet opening is larger than the replacement thermal oven. Oven Rings can be built to a variety of sizes depending on the existing opening. When ordering, please specify make and model number of the thermal oven and the existing cabinet opening. Oven Rings are available in:

Black ♦ White ♦ Biscuit ♦ Almond ♦ Stainless Steel Finish

MICROWAVE FILLER KITS

Microwave Filler Kits

Used to fill gaps on each side of an over-the-range microwave when the space between the cabinets is too wide. Standard Sizes: 3"W x 11"D x 15 3/4"H & 6"W x 11"D x 15 3/4"H Custom sizes are available. Microwave Filler Kits are available in:

Black ♦ White ♦ Stainless Steel

NOTE: Filler Kits must be installed before the microwave.

COOKTOP TRIM-KITS

- ◆ One-piece seamless kits
- ◆ Designed to fit almost any countertop opening
- ◆ Allows a wide variety of cooktop choices

For use when installing almost any desired cooktop into an oversized existing countertop opening. These kits alleviate the extra expense of re-tiling or replacing the existing countertop. Each kit is fabricated out of sturdy aluminum according to your specifications.

Note: Cooktop Trim Kits are cosmetic only and are not designed to support the weight of the cooktop. Some countertop modifications may be necessary for support. Cooktop Trim Kits are available in:

**Black ♦ White ♦ Biscuit
Stainless Steel Finish**
